

## **PBCore Advisory Sub-Committee Meeting Agenda 11/18, 8:00 AM**

1. Update on PBCore developments over the past year
  - a. Education and Training grant
  - b. PBCore webinar series with NEDCC
  - c. Spanish translation project underway
2. Discussion and request for feedback on forthcoming PBCore activities
  - a. Spanish translation and webinars -- how to promote these activities
  - b. Full-day workshop at AMIA next year
  - c. In-person workshops scheduled for next year as part of the grant -- should these switch to virtual?
3. Further development of the standard
  - a. Is it time to revisit the controlled vocabularies?
4. General discussion

### Notes/Outcomes:

- General agreement that it may be time to revisit the controlled vocabularies to add (but not remove) terms; an email will go out to the AMIA list after the conference to try and recruit volunteers for this effort, and will also attempt to engage assistance via the Cataloging Committee
- Also general agreement that the three-letter language code requirement in PBCore is outdated and should be updated, so long as it remains backwards compatible
- Some interest from attendees in in-person workshops -- maybe a good idea to do a survey and see whether all in-person workshops should go forward next year, or whether some or all should be switched to virtual
- Questions about AMS 2 led to suggestions that AMS 2, as a PBCore-based DAM system, should be included under PBCore tools/resources with documentation when AMS 2 updates are finished (also potentially an AMIA session for next year)
- Interest in developing general cataloging guidelines for audiovisual material as something for the Cataloging committee to undertake

### **Attendees**

Rebecca Fraimow  
Shannon Devlin  
Rachel Curtis  
Richard W. Kroon  
Casey Davis Kaufman  
Ann Wilkens

Lauren Jefferson  
Karen Cariani  
Samantha May Driscoll  
Joanna Poses  
Danielle Calle  
Brian Dunbar
